

 Click here to follow along with the step-by-step instructional video.

USING AN IPAD OR TABLET

- Depending on if you are starting a new website or logging into an existing website, you can use a tablet to build out your website.
- You will open a browser on your tablet and register/log in to begin your website by going to nhdwebcentral.org
- You can refer to the instructions on pages 2-30 for registering and creating your website, as the instructions remain the same.

Notes about tablets

- The blue control box that appears with your elements (explained on page 22) will help you navigate your blocks and edit on a tablet.
- Devices that NHDWebCentral™ can be created/built on:
 - iPad
 - Amazon Fire
 - Android tablets
- On your tablet you will go to nhdwebcentral.org through your tablet's browser to access your website.

NOTE: While you can build out your website on a tablet, it would be best to refine and test your website on a laptop or desktop computer. This ensures the functionality is working properly when a judge views your website.
